

Dorothy Ouchida

After graduating from University of California, Davis in Food, Science and Technology, Ms. Ouchida worked for companies such as Pfizer, Amgen, Boehringer Ingelheim, Pharmacia, and Avanir. Dorothy is passionate about patient-centricity in the biotechnology, drug research and clinical development and has more than 40 years of experience in Patient Advocacy, Alliance Development at the global, national, and state levels.

Dorothy has served on local and national professional and community boards, including: ASCP Foundation Board of Trustees; University of California, Davis Medical Center Community Advisory Board; California Medical Association Foundation Advisory Board; California Depressive Bipolar Support Alliance Advisory Board; Hawaii NKF Advisory Board, Hawaii Arthritis Foundation Advisory Board. Ms. Ouchida has been recognized by NADONA, MS Society California Action Network, National Minorities Quality Forum, California Huntington Disease Society of America, California Depressive Bipolar Support Association, Hawaii Arthritis Foundation, California Medical Association, California NeuroAlliance.

Dorothy enjoys people, black labs, global travel, sports, being a "foodie" and Japanese whiskey connoisseur, but most of all, spending time with her grandkiddos in today's busy, hectic world.
